In Prague, Austria, according to a late report by the United States Consul at that place skilled glove makers earn

\$4.00

a week and work eleven hours a day at that. In this country

\$12

a week is an ordinary rate for this skilled labor. Without Protection the American glove maker would have to accept the pay of his foreign competitor or find another job.

SORRY.

Chicago Tribune.—There are signs that Secretary of the Treasury Carlisle wishes he had learned some other trade.

WE'RE WITH YOU ONCE.

Kennedy Journal.—Isn't it about time to call a halt when *The Paducah Standard* feels impelled to say of Sam Jones that: "We would as soon doubt the sincerity of Jesus Christ himself as to believe that the Rev. Sam Jones is anything less than a grand man, an inspired preacher, and a devoted champion of the salvation of human souls." The words liar, thief, villain, scoundrel, hypocrite, red-nosed bummers, etc., which go to make up so much of the tirades of Sam Jones are not the burden of the Sermon on the Mount.

FOOLISH PROCEEDINGS.

Commercial Gazette.—When gold stood at its top notch figure of \$3.85 in 1891, men who had no confidence in the Government were buying and storing it for future use. These investors were called fools, and so they were, for a year afterward gold was at \$1.35, and from that time almost steadily declined until the premium was wiped out. It would, we suppose, be unpatriotic to call Uncle Sam a fool, yet with all his financial experience he has been constantly buying up pig silver at the rate of one hundred and forty tons a month, giving his credit notes in payment. With half an eye any man of common business sense could see that this cornering of the silver market on the plea of keeping the metal in parity with gold must sooner or later be broken and force gold to a premium. We are bound to say that in this transaction Uncle Sam has shown himself unwise.

UNCLE SAM'S CAPACIOUS PURSE.

Boston Transcript.—Two hundred and fifty freight cars would be required to carry away from Washington the silver dollars which are stored in the single vault of \$93,000,000. Putting it that way gives a more vivid notion of the bulk represented by the stores of coin accumulated beneath the Treasury. No wonder that the counting, conducted by sixty experts, occupies from two to three months, and costs \$6,000. The operation is performed in the presence of a committee, one member of which is appointed by the outgoing Treasurer, one by his incoming successor and the third by the Secretary of the Department. The Treasurer gives a bond of \$250,000, but no bond is supplied by any of his subordinates. If one of the latter should prove a defaulter the Treasurer would be obliged to make up the deficit out of his own pocket. However, Congress would doubtless pass a bill for his relief in such a case. J. N. Huston, President Harrison's first Treasurer, said that no trust company would assume the responsibilities of his place for the \$6,000 per annum of salary attached to it. Nevertheless, there have been many applicants for the position under Mr. Cleveland. When the count of the money is completed the new Treasurer will sign a receipt in full. The receipt signed by Mr. Nebeker was for \$664,816,445.55.

PENNOYER'S PUGNACITY.

Commercial Gazette.—In lack of respect for high functionaries, especially Presidents, Governor Pennoyer of Oregon is making a record as a terror. When President Harrison was making his famous swing around the circle the Governor refused to meet and welcome him at the state boundary line, declaring that as Governor of the state his office was at the Capital, and that the President could call and see him there if he liked. The haughty Pennoyer did, however, consent to meet the President at the railroad station in Salem, although the train was held nearly half an hour awaiting the arrival of his gubernatorial Majesty. Another notorious sample of Governor Pennoyer's eccentricities was his refusal of a state salute in honor of Mr. Cleveland's second inauguration, declaring that he "would not spend the people's money for powder in honor of a Wall street autocrat." If, however, disposed to complain of Mr. Pennoyer's discourteasies, Mr. Cleveland cannot, on his own behalf, with any grace point to the Governor's ill treatment of President Harrison. The Governor could very smartly get back at him by reminding him of his recent appointment, for a second time to the same office, of a West Virginia Democrat who sent President Harrison an insulting telegram the day after the November election. It is said that General Harrison called this matter to the attention of Mr. Cleveland, who promised to give it due consideration.

PUBLIC LEDGER

SECOND YEAR.

MAYSVILLE, KY., TUESDAY, MAY 9, 1893.

ONE CENT.

THE REASONS WHY

The Maysville Real Estate Company's Lots are Desirable.

Why are the lots offered by the Maysville Real Estate Company desirable for residences for people in business?

Because they are on the electric car line, only ten minutes ride from the Postoffice.

You can have all the conveniences of light and water and be free from the dust and heat of the more crowded part of the city.

Why do the lots present to you more inducements to build a nice home than any other section of our suburbs?

Because the company that owns these lots will not permit purchasers to put up any but

attractive, modern buildings, thus making each add to the beauty of the other.

Why are these lots more desirable than most other lots in the city as to streets and alleys? Because all the lots front on nice, wide streets, which will next year be beautified by having rows of maple trees planted along the entire length. The nice, wide alleys afford rear entrance to all the lots, thus giving a means of entrance and exit so much to be desired.

Another great reason for desiring a home in this addition can be found in the fact that almost one-fourth of a mile on the West side of the street will be devoted exclusively to residences.

Plans can be seen and prices and terms learned at the State National Bank, Collins & Rudy Co.'s office and at M. C. Hutchinson's grocery.

JOHN T. FALLIS, a prominent Covingtonian, died Sunday.

BORN, to the wife of John Bromley of West Second street, a son.

THE attendance of country people at County Court yesterday was not large.

THE hemp factory of W. B. Nelson burned at Lexington with a loss of \$25,000.

THE many friends of Mrs. M. R. Gilmore will regret to learn that she is quite ill.

THE new M. E. Church at Aberdeen will be dedicated the third Sunday in this month.
